

PASS™ Quick Reference Guide

Software Version 2.09 or greater

Tools Key

PASS (PRC Application and Support Software)

PASS demo software for PRC products allows you to create, modify, and save vocabularies, then load them into your communication device. You can also use PASS to create support materials, such as smart charts, manual boards, and vocabulary lists. With PASS, AAC support professionals and family members can practice or work on a client's device contents without needing to have the device present.

System Requirements

Windows Vista®, Windows® 7, Windows 8, Windows 8.1 or Windows 10.

Note: This is a desktop application and will not run on Windows RT or in the "Tiles" on Windows 8 or Windows 8.1.

Most operations and programming in the PASS software are exactly the same as on a PRC device. However, there are a few differences and some other features. This Quick Reference Guide covers PASS-related topics that are not covered in the [Accent Quick Reference Guides](#) and other language system support materials.

To learn how to add words, activities, and pages to a vocabulary, refer to your device/language system-specific Quick Reference Guide.

WRITE WITH ICONS (WWI) FOR UNITY AND LAMP WFL ONLY

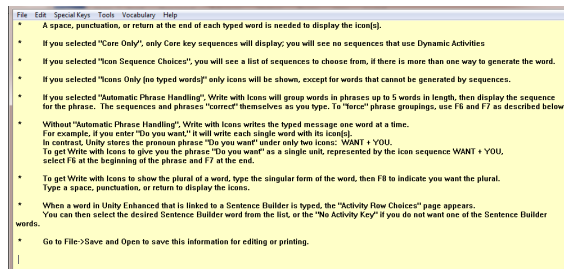

Write with Icons allows you to type words and see them displayed as icon sequences. WWI works with **Unity** and **LAMP WFL**. For example, if your PASS is in a user area with Unity 84 Sequenced, WWI will display icon sequences for words in Unity 84 Sequenced. People use Write with Icons to make support materials such as flash cards, target vocabulary lists, and adapted classroom materials.

To use **Write with Icons**:

- Select the **Vocabulary Tab**.
- Select **Vocabulary Display Options**.
- Select **Write with Icons (F11)**.

Note: If this is your *first time* using PASS, you will see a WWI setup screen. You can use this to change how WWI works (see WWI Preferences). To skip this screen in the future, uncheck the box marked “Show set-up at Write with Icons start-up”. Select **OK**. The display will change to a tan background with WWI instructions on the top of the screen.

Now whatever you type will show up on the display with icon sequences. You must type a word and then **add a space, tab, return, or punctuation after it** to display the icon sequences.

To format and print your words and icon sequences, select **File**, then **Save and Open**. Name your file and designate where you want the file saved on your computer. Then select **Save**. Your words and icon sequences will open in a text document. Format and print. To stop using WWI, select **Vocabulary** and then **Return to Emulator**.

WRITE WITH ICONS PREFERENCES

To change WWI options, go to the **File Menu** and select **Preferences**.
